

Anand Bhayya

Petroleum Engineer

✉ bhatiyaa720@gmail.com ☎ +919991115704 📍 Mysore, India

PROFILE

Certified Scrum Product Owner (CSPO®) and Petroleum Engineer with 4+ years of cross-functional experience at the intersection of energy-tech, drilling engineering, and product ownership. Adept in agile environments, software QA, and real-time operational support. Proven ability to drive product efficiency, deliver high-quality engineering tools, and lead cross-functional teams to deliver data-driven, user-centered solutions.

SKILLS

- | | | | |
|--|--|---------------------------------------|-----------------------------|
| • Product Ownership & Agile Delivery | • Drilling Engineering & Simulation | • Quality Assurance & Test Management | • Application Support & RCA |
| • Data Analysis & Real-Time Monitoring | • Azure DevOps (ADO), Microsoft Office | • Defect Lifecycle Management | • Sprint Planning & Review |

PROFESSIONAL EXPERIENCE

Drilling Domain QA

Larsen & Toubro technology services

06/2023 – Present

Mysore, India

- Act as domain Product Owner bridging users, engineers, and developers for drilling software systems.
- Translate user needs into detailed functional requirements and testable use cases.
- Lead sprint planning, feature validation, and backlog grooming in Agile teams.
- Conduct extensive functional, regression, and performance testing to ensure real-world simulation accuracy.
- Perform Root Cause Analysis (RCA) and triage high-priority issues to improve software reliability.
- Provide application support and coordinate cross-functional troubleshooting efforts.
- Deliver internal training sessions to developers on drilling workflows and domain use.

Wells Engineer

Quest-global engineering services

03/2021 – 03/2023

Bangalore, India

- Led well integrity surveillance for subsea and TLP assets using real-time data.
- Monitored annulus pressures and SCSSV health; identified and flagged anomalies.
- Updated well completion diagrams and recommended interventions for well revival.
- Supported ESP surveillance and daily performance optimization reporting.
- Mentored junior engineers in well monitoring practices and documentation.

PROJECTS

Physics of multiphase flow in well bore & types of flows

Physical model preparation

EDUCATION

B.Tech Petroleum Engineering
Presidency University

08/2015 – 05/2019
Bangalore, India

CERTIFICATES

Certified Scrum Product Owner® (CSPO®) Scrum Alliance

Well Planning (IHRDC)

Well Planning (Overview, well selection, AFE preparation, Data gathering, Well and rig design consideration, Drilling contracts, Cost review)

Certified in "Measurement While Drilling (MWD)"

Enhanced my knowledge about the different sensors used to measure different parameters in MWD tools

Certified in "Logging While Drilling (LWD)"

Enhanced my knowledge about the different sensors used for formation evaluation in LWD tools.

AWARDS

Star of the month award for outstanding performance & dedication

Larsen & Toubro technology services

Won "On the Fly Award twice for the exemplary project delivery"

Quest-global engineering services

Secured first prize in science exhibition held in Presidency University

Presidency University Bangalore

Secured first prize in state level volleyball & basketball championship

Karnataka state board
