

# KRISHNA PRASAD S

+91- 8778145317 skrishna6999@gmail.com Chennai, Tamil Nādu, India

## OBJECTIVE

Petroleum Engineer with 4 years of experience in upstream oil & gas operations, software testing support, performance analytics, and quality assurance. Skilled in functional, integration, regression, performance, and user acceptance testing (UAT) for engineering applications. Adept at collaborating with cross-functional teams, managing defect tracking processes, and delivering high-reliability software solutions. Hands-on experience with Agile methodologies, automation tools, and engineering software such as WellCat, Wellplan, and Compass.

## CORE COMPETENCIES

- Software Testing: Smoke, Functional, Integration, Performance, Regression, and UAT
- Agile Methodologies & Tools: Azure DevOps, JIRA, TFS
- Automation Tools & Frameworks: Test design, framework enhancements, defect tracking
- Quality Assurance: Test case development, defect management, software reliability improvement
- Stakeholder Collaboration: Cross-functional team coordination, requirement gathering, documentation
- Technical Skills: EDM Suite, SQL, Python, Power BI, Excel, SharePoint

## EXPERIENCE

Engineer – Wells (Technical Asset Support – Subsurface & Well, Reservoir and Facility Management)  
SHELL PLC, Chennai 2023-Present

- Designed, developed, and executed test cases for engineering applications (CWT, EDM, Sitecom), covering functional, performance, and regression testing.
- Led quality control processes to ensure data accuracy and system reliability in upstream operations.
- Collaborated with cross-functional stakeholders to align software enhancements with business needs.
- Utilized engineering tools (WellCat, Wellplan, Compass) for well trajectory, casing design, and operational analysis.
- Managed defect tracking and resolution processes using Azure DevOps and JIRA, ensuring timely closure.
- Developed automated reporting workflows to improve efficiency and reduce manual effort.

Associate Engineer- Wells (Technical Asset Support – Subsurface & Well, Reservoir and Facility Management)  
SHELL PLC, Chennai 2021-2023

- Supported software and data QA processes for upstream applications, ensuring compliance with operational standards.
- Created detailed test documentation, including plans, scripts, and defect logs.
- Assisted in test automation initiatives to improve scalability and repeatability of test cycles.
- Collaborated with developers, product owners, and end-users to refine requirements and enhance usability.
- Conducted regression and integration testing for application updates before production deployment.
- Provided technical training and mentoring to new team members on QA processes and tools.

## SKILLS

**Data ecosystem expertise** – Managed large datasets across multiple geographies with a focus on quality control, governance, and reporting.

**Analytical tools & dashboards** – Designed and implemented dashboards for real-time performance monitoring aligned with sustainability KPIs.

**Stakeholder engagement** – Delivered presentations, insights, and recommendations to diverse global teams.

**Research & recommendations** – Investigated industry practices to drive strategic improvements and support long-term goals.

**Technical Skills:** Wells Operations, Well Performance KPI benchmarking, Wells Value Assessment, Compliance and Regulations.

**Software Skills:** Landmark Engineer’s Data Model (EDM), CDS (Corporate Data store), WMM (Well and Wellbore Master Manager), WellVantage, DREAM, SIRUS, BPA2, GeoX, Petrel, Recall, Techlog, SharePoint Management, Microsoft Power BI (pro Access), SQL, Phyton, MS Access, Microsoft suite.

**Soft Skills:** Project and stakeholder management, Learner Mindset, Continuous improvement, Communication, Collaboration, Problem Solving, Diversity & Inclusion Awareness.

EDUCATION

|                                                 |           |
|-------------------------------------------------|-----------|
| AMET Deemed to be University, Chennai.          | 2017-2021 |
| Bachelor of Engineering – Petroleum Engineering | 7.56 CGPA |

---

CERIFICATES & ACHIEVEMENTS

- Led a continuous improvement initiative that resulted in 0.5 FTE resource savings by streamlining Well performance benchmarking (KPI’s) with real-time data
- Special Recognition Award for Wells and subsurface Data Management for Nigeria Asset  
Shell 2025
- Special Recognition Award for Wells Performance Optimization for UK Asset  
Shell 2024
- Special Recognition Award for Wells Data Management for UK Asset  
Shell 2022
