SUMMARY

Petroleum Engineer having almost 6 years of domestic experience in upstream Oil and Gas industry. Mostly in India with extensive experience working with – IT Software & Solutions development for upstream oil & gas, Well data management, Mud logging Operations and Real time Monitoring. Offshore operations including - Ultra Deepwater wells(Drillship), Shallow wells(Jackup rigs), Multilateral wells, Exploratory wells, Horizontal wells and HP/HT wells. Onshore operations including Exploratory wells & Development Wells, HP/HT wells. Comprehensive knowledge of drilling operations & well monitoring. Practical knowledge and experience in the different aspects of well monitoring.

SKILL HIGHLIGHTS

- Team Worker
- Strong decision maker
- Complex problem solver
- Quick learner
- Innovative
- Service-focused

WORK EXPERIENCE

DRILLING OPERATIONS ENGINEER - 08/2024 to Present
HELMERICH AND PAYNE TECHNOLOGIES PVT LTD, GOA.

- Monitor Multiple rigs in real-time to identify performance optimization, Perform engineering analysis, Provide updates and run engineering simulations on LiveScan software.
- Monitor Drilling performance and escalate alerts pertaining to shocks and vibrations, MSE, Torque & Drag and adherence to recommended Operating Procedures.
- Prepare Pre/Post/Real time reports for the client.

RTOC ANALYST - 06/2022 to 07/2024.
APOLLODART KI SOLUTIONS PVT LTD, Hyderabad
Formerly Known as **PNRG SOLUTIONS PVT LTD**

- Responsible for Software and Solutions development for Upstream Oil & Gas Well Data Management.
- Comprehensive analysis of Upstream Onshore and Offshore well data. Excellent knowledge in real-time monitoring system & operational data.
- Training and presentation to new drilling team members on real-time workflows in drilling operations
- Monitoring 24*7 drilling operations for various wells from a real-time drilling centre.
- Working Experience with WITS, WITSML and Mapping.

EDUCATION

M.TECH , PETROLEUM ENGINEERING
IIT-INDIAN SCHOOL OF MINES, DHANBAD, INDIA
2016-2018

B.TECH , PETROLEUM TECHNOLOGY
ADITYA ENGINEERING COLLEGE, ANDHRA
PRADESH , INDIA
2012-2018

INTERMEDIATE, M.P.C
HARSHA SREE VIJAYA DURGA JUNIOR COLLEGE,
ANDHRA PRADESH, INDIA
2010-2012

10TH, CBSE
KENDRIYA VIDYALAYA ONGC, RAJAHMUNDY
ANDHRA PRADESH, INDIA
2009-2010

PROJECT WORKS

M.TECH Internship: “Understanding of Artificial Lift methods employed by ONGC in Ankleshwar Asset, Gujarat (01/05/2017 to 26/05/2017).

M.TECH Project Work: “Hydrodynamic behavior of heavy crude flow in pipelines using natural surfactant”.

B.TECH Internship: Completed four weeks internship in ONGC on the topic” Surface logging techniques” (13/06/2015 to 07/06/2015).

Presented power point presentation on the topic “Shale Gas Exploration of Indian scenario” at IIT-KHARAGPUR.

B.TECH Project Work: The role of Mud logging and real time operations during oil well drilling operations.

TRAINEE MUD LOGGER - 04/2020 to 10/2021.
EXCELLENCE LOGGING MIDDLE EAST, Kakinada.
CLIENT: RELIANCE INDUSTRIES LIMITED & BP.
BLOCK: KGD6, INDIA.
RIG TYPE: DRILLSHIP

MUD LOGGER – 05/2019 to 04/2020.
JINDAL DRILLING AND INDUSTRIES LIMITED, Mumbai
CLIENT: OIL AND NATURAL GAS CORPORATION, INDIA
BASIN: ASSAM-ARAKAN (AGARTALA & SILCHAR)
RIG TYPE: ONSHORE

MUD LOGGER – 07/2018 to 01/2019.
OFI INDIA PRIVATE LIMITED, Mumbai, INDIA
CLIENT: OIL AND NATURAL GAS CORPORATION, RAJAHMUNDY
BASIN: KRISHNA GODAVARI & KG EASTERN OFFSHORE.
RIG TYPE: ONSHORE & OFFSHORE (JACKUP RIGS).

- Monitor rig site drilling operations such as drilling, circulation, casing & cementing, Tripping, Monitor pit volumes and other pre kick detecting parameters to identify well kicks.
 - Collect, prepare, and examine geologic samples under the microscope for lithological type and percentage and under UV light for indications of oil.
 - Describe lithological samples & prepare Master log on daily basis, Composite log after logging.
 - Maintenance of mud logging sensors & rig up, rig down of the mud logging unit.
-
