CAREER OBJECTIVE

I have over 3.7 years of experience, with hands-on expertise in designing, implementing, and maintaining continuous integration and deployment pipelines. I am proficient in cloud technologies, automation scripting, and system troubleshooting. Additionally, I am skilled in optimizing processes to enhance development and operational efficiency, with a proven ability to collaborate cross-functionally and deliver reliable, scalable solutions.

EXPERIENCE

➤ Tata Consultancy services, Bengaluru. DevOps Engineer

Form Feb 2022 - Present

- Used **GitHub** for version control and source code management across multiple projects and teams.
- Designed, implemented, and maintained automated **CI/CD** pipelines using **Jenkins** for application deployment and infrastructure provisioning.
- Developed scripts for CI/CD pipelines and performed scanning with **Nexus IQ**, **SonarQube**, and **AquaSec** to ensure code quality, license compliance, and vulnerability detection.
- Onboarded applications to **Sonatype Nexus** Lifecycle for automated open-source component analysis and policy enforcement.
- Experience in automating infrastructure provisioning, AKS clusters and managing cloud resources on **Microsoft Azure**.
- Experience in Infrastructure as Code (IaC) using **Terraform**, developing modular scripts for automating cloud resource provisioning on **Azure**, managing remote state, and integrating with CI/CD pipelines.
- Experience in **Docker** containerization, building custom images, configuring volumes for persistent storage, and managing container networking.
- Knowledge in **Kubernetes** (K8s) for container orchestration, Managed **AKS** clusters, including node scaling, upgrades, and monitoring, to ensure optimal performance and availability.
- Handled **version upgrades**, proxy repository configurations, and ensured high availability (HA) of the **Nexus repository**.
- Created and maintained detailed **runbooks** in **Confluence** and Github repo for new tasks and issue resolutions, improving team efficiency and reducing troubleshooting time.
- Experienced in **Linux** system administration, including server management, troubleshooting, and automation tasks.
- Basic knowledge of writing automation scripts using **Python** and **Shell scripting** to streamline routine DevOps and system tasks.
- Participated in bug review meetings and released builds to **pre-production** and **production servers**.
- Developing and implementing software release management strategies for various applications according to the **Agile Process**.
- **Troubleshooted** deployment problems, release issues, and environment issues in a multi-component environment.

Junior Design Engineer

- Responsible for working with the team to design and developing the product based on the requirements asked.
- Responsible for making the designs for manufacturability depending on the manufacturing process.
- I have knowledge on Product design, 3D Modelling and 2D drafting in solidworks.
- Proposed new product designing, revising existing products and components, perform project management duties during the cycles, supporting for production team.
- Producing all manufacturing and assembly drawings with the required Geometrical dimensioning tolerances and including Bill of material.
- I have basic knowledge about PLM & SAP PLM.
- I have knowledge about Solidworks simulation, Robotic simulation and robot reachability testing.

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900).

Microsoft Certified: Azure Administrator Associate (AZ-104).

Microsoft Certified: Azure Solutions Architect Expert (AZ-305).

EDUCATION

Government Engineering College, Kushalanagara. affiliated to Visvesvaraya Technological University, Belagavi.

Bachelor of Engineering: Mechanical, Aug 2020

CGPA 8.14

SKILLS

- | | | |
|--------------|--------------------|-------------------|
| • Azure | • Ansible | • Linux |
| • Docker | • Jenkins | • Jira |
| • Kubernetes | • Harness (Basics) | • Dynatrace |
| • Terraform | • Github | • Python (Basics) |

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I am confident that I will contribute effectively to your organization if given the opportunity.

Yours sincerely

Adithya N
