

# FARMAN ALI

Principal Software Engineer | Bangalore, India | +91-9389298087 | farmanali.alpha@gmail.com

## OBJECTIVE

---

Results-driven Principal Software Engineer with 10+ years of experience delivering enterprise-grade applications across E-commerce, Identity & Access Management (IAM), Intelligent Transportation Systems (ITS), Travel, and Risk Advisory domains.

Specialized in Azure Cloud, Event-Driven Architectures, and Microservices with proven expertise in OAuth2, OIDC, SAML, CQRS, Kafka, and performance optimization. Adept at architecting and scaling **high-traffic E-commerce platforms** with seamless integration of payment gateways, personalization engines, and large-scale transaction handling.

Recognized for innovation, leadership, and driving scalable, high-performance solutions.

## CORE TECHNICAL SKILLS

---

**Backend:** C#, .NET Core, MVC, Web Form, Web API, REST API, EF Core, LINQ, Redis, Kafka, DSA

**Frontend:** Angular, TypeScript, JavaScript, PrimeNG, Angular Material, HTML, CSS

**Cloud & DevOps:** Azure (Functions, Logic Apps, Web Jobs, App Insights, Azure AD), Azure DevOps, GitLab, CI/CD, SonarQube, Checkmarx

**Database:** SQL Server, MongoDB, SQL Execution Plan, SQL Profiler, SQL Jobs, DB Optimization

**Architecture & Pattern:** Microservices, Micro Frontend, Server Less, Event-Driven Systems, CQRS, Mediator, Saga, Factory, Repository Pattern, Façade, Strategy, Observer, Resiliency (using Polly)

**IAM:** OAuth2.0, SAML, OIDC, Federated Identity, RBAC, FIDO, SCIM, JWT

**AI Integration:** Python, LangChain, Pinecone, VectorDB, Embeddings, ChatGPT

## DOMAIN EXPERTISE

---

- E-commerce Platforms – High-traffic B2B/B2C applications, multi-vendor marketplaces, product catalog optimization, payment gateway integrations, personalization, and large-scale order processing.
- Identity & Access Management (IAM)
- Risk Advisory & Corporate Risk Management – Background Verification, Investigations, Threat Monitoring, Guard Operations
- Intelligent Transportation Systems (ITS) – Highway Traffic Management & Tolling Solutions
- Cloud-Native Enterprise Applications & Microservices
- Travel Platforms

## PROFESSIONAL EXPERIENCE

---

DELL Technologies – Principal Software Engineer

Apr 2022 – Present

- Led the development of a Federated Identity Self-Service Portal enabling external Identity Experts to configure Single Sign-On (SSO) using SAML & OIDC protocols.
- Built and enhanced **E-commerce modules for dell.com**, optimizing product catalog services, order processing APIs, and personalization features for millions of global users.

- Designed high-performance microservices and implemented CQRS and Kafka-based event-driven architecture to handle large-scale E-commerce transactions.
- Integrated SonarQube, Checkmarx, and Azure DevOps pipelines for secure, automated deployments.
- Achieved a 35% improvement in API response times and reduced deployment cycles by 40%.
- Led technical discussions, architectural design, and code reviews to enforce clean architecture principles.

#### **DELL (via Ernst & Young) – Senior Software Engineer**

**Jan 2021 – Apr 2022**

- Designed scalable IAM services focusing on token lifecycle management, provisioning, and OAuth2/OIDC-based authentication.

#### **Pinkerton – Full Stack Developer**

**Nov 2018 – Jan 2021**

- Developed an ERP solution for Risk Advisory & Corporate Risk Management operations, covering Pre-Employment Screening (education, address, drug verification), investigations, threat monitoring, guard management, and consignment delivery.
- Streamlined complex security workflows for a global enterprise acquired by Securitas (pinkerton.com)
- Architected microservices-based backend and interactive Angular dashboards, improving user experience by 30%.
- Deployed Azure Functions, Logic Apps, Web Jobs, and integrated Azure Active Directory for enhanced security.

#### **Metro Infrasy – Software Engineer**

**Jun 2016 – Nov 2018**

- Developed and deployed Intelligent Transportation Systems (ITS), including Highway Traffic Management Systems (HTMS) and Tolling Solutions.
- Integrated real-time monitoring (CCTV, AVCC, ECB, VMS) and designed route visualization modules for enhanced highway operations and incident management.

#### **Saffron Tech – Dot Net Developer**

**Feb 2015 – May 2016**

- Developed **multiple E-commerce applications** for B2B and B2C clients, including multi-vendor marketplaces, product recommendation engines, and secure payment gateway integrations.
- Implemented advanced search, product filtering, and dynamic pricing modules to improve user engagement and sales conversions.
- Built E-commerce backend APIs integrated with ERP and CRM systems, improving operational efficiency.
- Delivered responsive front-end interfaces using HTML5, CSS3, and JavaScript for seamless cross-device experiences.

## **EDUCATION**

---

- B.Tech - UP Technical University, 2009 - 2013
- Intermediate - UP Board, Lucknow, 2007 - 2009
- High School - UP Board, Lucknow, 2006 - 2007

## **AWARDS & RECOGNITION**

---

- Game Changer & Innovation Award – Dell Technologies, 2023
- IAM Exceptional Award – Ernst & Young, 2021
- Best Employee – Pinkerton, 2020
- Best Team Member Award – Metro Infrasy, 2018
