

HAREESHMA.B

SENIOR SOFTWARE ENGINEER

✉ bhareeshma@gmail.com 🌐 <https://www.linkedin.com/in/hareeshma-balaji-kumar> ☎ +91 9790914790

SKILLS

Primary

- **Framework** Angular (2 -16)
- **Languages** JavaScript, Typescript
- **Database** Snowflake, MySQL, PostgreSQL
- **Container** Docker
- **Cloud Platform** Amazon Web Services
- **Version Control** Git

Secondary

Spring Boot (Java), Python FAST API, Kafka, MongoDB, ReactJS

Other Technical expertise includes working with **microservice based architecture**, integrating **RESTful API's**, applying **RxJS** in Angular, in-depth knowledge of **Material and PrimeNG libraries** and technical mentoring of junior developers

ACHIEVEMENTS

Siemens Advanta DTS Hackathon Winner 2023

Siemens Advanta Rosefinch Mendix Challenge Runner 2023

White Paper Publication on Carbon Footprint Calculation of Edge 2024

EDUCATION

Bachelor of Engineering in Electronics and Communication – 2013 - 2017

PROFESSIONAL OVERVIEW

Senior Software Engineer with extensive full stack development experience and a strong focus on innovation and scalable architecture. Expertise in building robust applications across diverse domains using Angular, Spring Boot and FAST API. Leading cross-functional teams and designing end-to-end solutions.

WORK EXPERIENCE

Senior Software Engineer

Siemens, Bengaluru | Oct 2021 – present

Primary Skills – Angular, Python FAST API

- Architected and developed a schema - based Simulation tool as a Web application with responsive UI using Angular that integrates with Power Plant Optimization solvers
- Implemented multiple **reusable components, lazy loading, dynamic forms, authentication** using Azure AD
- Leading technical discovery sessions with Subject Matter Experts to gather requirements and design UI.
- Leading a team of developers to build a web application using Angular and FAST API, that automates Report generation, by helping users to design customized templates
- Mentoring a team of 4 junior developers to scale up in full stack development.

Software Engineer

Cognizant, Chennai | Oct 2017 – Sep 2021

Primary Skills – Angular, Spring Boot (Java), Kafka

- Developed multiple re-usable components, role-based user management for an Admin Application using Angular for a Wealth management platform
- Created Angular Libraries to be used across modules
- Developed intuitive dashboards with **HighCharts** and **Wijmo** Grids
- Used Kafka as a message streaming service to implement Loaders in Cash Transactions
